What are VPN Services?

With VPN services you can have privacy and security on the internet. VPN hide your identity and location from anyone and it secures your connection. With VPN you can access restricted websites.

Protect Your Privacy Online

As you are using VPN services, no one would know your actual IP address and geographical location. That means you will surf anonymously online and that advertisers and marketers cannot target you with ads.

Secure Your Internet Connection

By encrypting your connection, VPN service protects your personal data from cyber criminals and authorities, prevents deep packet inspection from the ISP and secures you on public Wi-Fi networks.

Bypass Restrictions & Blocks

By hiding your identity, VPN services helps you to bypass censorship imposed by your country, bypass blocks imposed at your workplace, school or university.

Why use [CactusVPN](#)?

High speed VPN servers

We use only high speed 1 gbps servers that are configured and managed by our high qualified admins to offer you the best speed and security.

You will get 20 VPN servers in 9 countries:

- * United States of America (4)
- * United Kingdom (5)
- * Netherlands (4)

- * DNS Leak protection
- * Sort servers by speed
- * Easy country / city switching
- * Easy VPN protocol switching
- * Available on Windows, macOS, iOS and Android

We don't keep any logs

No connection logs and most certainly no traffic logging. A completely log free VPN for every single one of you.

Professional 24/7 customer support

Our specialists are here 24/7 ready to help you. Just start a live chat or submit a support ticket from the client area.

Unlimited bandwidth and speed

We do not limit your bandwidth and speed in any way. So you will use the maximum you can get from your connection.

Multiple devices with one package

CactusVPN account is not linked to a particular device. You can use up to five devices simultaneously in the same time.

Shared static IP

You are sharing your IP Address with other users and it is near impossible to link a particular activity to a particular user or device.

Free proxy servers

Each VPN server doubles as a free proxy server that you can use whenever you like. This feature comes as a bonus, just because we love you!

Free VPN trial

Try our VPN services for free for 24 hours. No credit card is required. No speed and bandwidth limitations.

Works on a lot of devices

- * Windows
- * Mac OS X
- * iOS devices
- * Android devices
- * Ubuntu
- * Chromebook
- * Boxee Box
- * Routers

Money Back Guarantee

We offer 30-days money back guarantee if you can't connect to our VPN servers using all VPN connections included into your package or if you can't connect to Smart DNS service.
